RAILROAD MAN SUING SOUTH- TESTIMONY AS TO THE SANITY OF THE PRISONER.

"There she sits; right over there; the young woman with the black dress seated next to the lady with the white hair."

Indentified Mrs. Maud Ellison.

Up to that time it is doubtful if there were a dozen people in the crowded court room who knew the wife of the prisoner was in the court room. Instantly almost every person present craned their necks to get a glimpse of the girlish-looking wife.

It was then that Aftorney D. S. Then when they came to look for him he was gone.

Chased the Manager

It is my privilege to do so, if I see fit."
Then he went on to say that he had such a big royalty to play to klaw & Erlanger er every week that it had taken all his money, and he did not have enough to pay the actors and chorus.

Then, when the people were wondering what they were going to do and before they had fairly recovered from their surprise, Mr. Stern quietly walked out. When they came to look for him he was gone.

Chased the Manager

the slack came his arm was came and crushed crushed so hadly that it had to be taken off between the elbow and the shoulder. An action for damages followed, and the shoulder of between the elbow and the shoulder. An action for damages followed, and the state of the federal court. Both sides are trying to show that the accident was due to carelessness. The injury was received at a point of the road to get a large train by trade. In order to get a large train by trade. RUSHES OU THE LIFE

Not even Leprosy is more dangerous and deadly than Contagious Blood Poison. It is the greatest foe to human life and happiness, and the most loathsome and hateful of all forms of Blood Poison. The virus of this awful disease spreads quickly through the system and contaminates every drop of blood and affects every bone, muscle and tissue of the body. This monster scourge begins with a tiny little ulcer or sore,

muscle and tissue of the body. This monster scourge begins with a tiny little ulcer or sore, sometimes so small that the natural eye is deceived, but this little sign of infection is soon followed by swellings in the groin, a red rash or eruption upon the skin, the mouth and throat become sore and the hair and eyebrows fall out, and if the progress of the disease is not checked now, it passes on to another and even worse stage, when copper-colored splotches and foul and offensive ulcers break out upon different parts of the body, and not even the muscles and bones escape the ravages of the destructive poison, which penetrates deeper and deeper, and gradually tightens its coils and crushes out the life. penetrates deeper and deeper, and gradually tightens its coils and crushes out the life.

Contagious Blood Poison brings suffering and pain to the innocent as well as the guilty, for it is often communicated to others through handling the clothing of one infected using the same toilet articles, drinking out of the same vessel, shaking hands, and in verous other ways. But this merciless disease does not stop at adult age, for it is transmitted to children, and is responsible for the fearful increase of Scrofula, Catarrh, ill development, sickening sores and stubborn, deep-seated skin troubles, so commor among children; and these patient, helpless little sufferers must share the humiliating penalty of mebody's sin. If people only knew the horrors of blood poison they would shun it as they do Leprosy, and fear it as they do deadly Cancer and would never rest till every atom of the poison was forever destroyed and the disease completely stamped out.

You can't do this with Mercury and Potash, for, while they drive in the eruption and sores and all external signs of the disease, it is still raging within the body, and only by increasing the dose and saturating the system with these drugs can it be held in check. And thus the battle between Contagious Blood Poison and Mercury and Potash goes on till the Stomach rebels and will no longer retain the medicine, the bones become affected, and Mercurial Rheumatism, chronic indigestion and other troubles develop.

Until the discovery of S. S. S., the great vegetable blood purifier and tonic, no cure was known for Blood Poison. Like Leprosy it would run its course and was as surely fatal as Cancer. S. S. S. is an antidote for the destructive virus and péculiar poison that

causes this horrible disease, and has been known for nearly fifty years as a safe and reliable cure for this contagion. So thoroughly does S. S. S. cleanse the blood and system that all danger of transmitting the disease to others is removed, and no taint or sign of blood poison is ever found among the children or grand children of those once cured by S. S. S.

If there are any ulcers, sores or pains in the bones, stiffness of muscles, rashes or pimples upon the body, you may be sure that the fires of contagion are still alive and the virus still at work in the blood and system, and only by crushing out the life of this serpent disease can you hope for release from its coils.

S. S. S. is a specific for Contagious Blood Poison and a cure for this serpent's sting-Write for our book on the disease, which tells of the different stages and symptoms, with directions for home treatment. Medical advice without charge.
